Londres, Inglaterra	King's College London	http://goo.gl/lb9sAe	Oliver Trumble, Strategy Officer (Americas) Phone: +44 (0)20 7848 2936 Email: oliver.trumble@kcl.ac.uk	The Department of Informatics features a broad range of research from theoretical work in computer science to the engineering of advanced robots. Formed from a recent merger between Computer Science and parts of the Division of Engineering, Informatics provides a rich environment for cross-disciplinary work. The resulting research achieves impact through application to business and industrial problems, relevance to healthcare, contributions to standards and also through consultancy and public engagement. The Department is keen to support and promote innovation and enterprise across several different aspects, including consultancy, executive short courses, industrial projects and collaborations, and student-centred innovation. We are supported in our interactions with business and industry by our Industrial Advisory Board.
